Index of Subjects

Acidic compartments, in the endocytic vesicles of *Plasmodium berghei*, 1
Actin, in free-living and parasitic nematodes, 471
Adaptation, in *Fasciola hepatica*, 239
Adhesion, of micro-organisms to the surfaces of plant-parasitic nematodes, 155
of *Plasmodium falciparum*-infected erythrocytes to melanoma cells, 359
Alanine-amino-transferase, fluctuations in the activity of during nippostrongylosis, 301
Amino acid concentration, in the hydatid fluid from *Echinococcus granulosus* cysts, 135
Ancylostoma ceylanicum, host–parasite relationship of in the hamster, 283
Anopheles punctulatus, host selection by, 337
Anthelmintic treatment, strategies for, based on parasite distribution, 125
Antibodies, to surface epitopes of schistosomula in infected patients, 417
to *Trypanosoma equiperdum* naturally occurring in normal human serum, 401
Antigen masking, in *Schistosoma mansoni*, 213
Antigens, effect of praziquantel on the expression of in *Schistosoma mansoni* lung-stage larvae, 203
Antigens of *Schistosoma mansoni*, antibodies to in infected patients, 417
Apodemus sylvaticus, infracommunity structure of the helminths of, 145
species of *Eimeria* infecting, 329
Ascaris lumbricoides, factors influencing the distribution of, 125

Behaviour, effects of gastrointestinal hormones on in *Fasciola hepatica*, 239
Biomphalaria glabrata, effects of *Echinostoma paraensei* on the haemocytes of, 35
genetic basis of resistance to molluscicides in, 17
Biomphalaria pfeifferi, epidemiology of schistosome infections in, 21
Blastocrithidia triatomae, cultivation of on a *Triatoma infestans* cell line, 387
Brugia pahangi, egg production by, 105
Buffalo-derived theileria parasites, characterization of, 179
Bulinus globosus, epidemiology of schistosome infections in, 21

Caecal habitat, effect of on survivorship of *Leptorhynchus thecatus* in green sunfish, 447
Capillaria hepatica, possible control of house mice population outbreaks by, 425
Carbohydrate metabolism, of *Schistosoma mansoni* cercariae, 409
Cellular responses, around schistosomula in the lungs of infected rats, 57
Cercariae, carbohydrate metabolism of during transformation *in vitro*, 409
Chemotherapy, of murine malaria using liposome encapsulated chloroquine, 381
Chloroquine, in liposomes as chemotherapy for murine malaria, 381
Chloroquine resistance, in *Plasmodium berghei*, 1
Cloned DNA probes, use of in the differentiation of *Schistosoma mansoni* from *S. rodhaini*, 75
Cloning, of a repetitive DNA from rickettsia-like organisms, 81
Cultivation *in vitro*, of *Blastocrithidia triatomae* on a *Triatoma infestans* cell line, 387
Cutaneous reactions, to *Strongyloides ratti* in rats, 95
Cyclosporin A, action of on tapeworms *in vivo*, 291
Cyst nematodes, changes in the antigens of, 479
Cysts, free amino acid concentration in the hydatid fluid of, 135
Cyst structure, of *Leptomonas lygaei* in *Lygaeus pandurus*, 395
Cytoadherence, of *Plasmodium falciparum*-infected erythrocytes to melanoma cells, 359

Density dependence, of *Trichuris muris* in CBA/Ca mice, 451
2-Deoxy-D-glucose, transport processes of in *Plasmodium yoelii*-infected erythrocytes, 371
Diclidophora merlangi, motility of *in vitro*, 85
Diet, of the host, effect of on rodent malaria, 175
of polystomatid monogeneans, 265
Differentiation, of *Schistosoma mansoni* from *S. rodhaini*, 75
Dipetalonema viteae, detection of by radiorespirometry, 259
Dispersal, of *Unionicola* spp., 189
Distribution, of *Ascaris lumbricoides*, factors influencing, 125
Diversity patterns, in helminth communities in *Larus canus*, 439
DNA probes, cloning of from rickettsia-like organisms, 81
use of in the characterization of buffalo-derived theilerial parasites, 179
use of in the differentiation of *Schistoma mansoni* from *S. rodhaini*, 75
cDNA sequences, of nematode major sperm protein and actin, 471

Echinococcus granulosus, free amino acids in the hydatid fluid of, 135
Echinostoma paraensei, effects of on *Biomphalaria glabrata* haemocytes, 35
Egg production, by *Brugia pahangi*, 105
in *Raphidascaris acus*, 489
Eimeria spp., infection of *Apodemus* by, 329
transfer of from *Apodemus sylvaticus* to *Mus musculus*, 329
Endocytic vesicles, in *Plasmodium berghei*, 1
Epidemiology, of schistosome infections in host snails, 21
Erythrocytes, adherence of to melanoma cells, 359
transport of 2-deoxy-D-glucose in, 371
Expulsion, of *Heligmosomoides polygyrus* from mice, 459
of *Heligmosomoides polygyrus* is dose dependent, 115

Fasciola hepatica, gastrointestinal hormones and behaviour of, 239
neuropeptides in the nervous system of, 227
Fecundity, inequalities in during egg production in *Raphidascaris acus*, 489
Feeding habits, of polystomatid monogeneans, 265

Gametocytes, culturing of and effect on infectivity to mosquitoes, 165
sex ratio of in *Plasmodium* spp., 343
Gastrointestinal hormones, and behaviour in *Fasciola hepatica*, 239
Globodera rostochiensis, effect of oxamyl on the lipid utilization and infectivity of, 151
Glossina spp., cloning of a repetitive DNA from the rickettsia-like organisms of, 81
Glycogen, synthesis and degradation of by *Schistosoma mansoni*, 67
Gyrodactylus turnbulli, interaction between population growth and sexual reproduction in, 245

Haemocytes, of *Biomphalaria glabrata*, effects of *Echinostoma paraensei* on, 35
Haemocytic response, in the assessment of immunosuppression by *Moniliformis moniliformis*, 307
Hamster, *Ancylostoma ceylanicum* infections in, 283
Heligmosomoides polygyrus, dose-dependent expulsion of, 115
expulsion of from mice, 459
Helminth infracommunities, diversity patterns of in *Larus canus*, 439
Helminth infracommunity, structure of in *Apodemus sylvaticus*, 145
Heterodera glycines, changes in the antigens of during infection of soya beans with, 479
Histopathology, of *Schistosoma nasale*, in cattle in Sri Lanka, 197
of the lungs of *Schistosoma mansoni*-infected rats, 57
Host location, by *Unionicola* spp., 189
Host–parasite relationship, of *Ancylostoma ceylanicum* in the hamster, 283
of *Leptomonas lygaei* in *Lygaeus pandurus*, 395
of *Trichuris muris* in CBA/Ca mice, 451
Host predisposition, to trichuriasis, 275
Host selection, by *Anopheles punctulatus*, 337
Host specificity, of *Unionicola* spp., 189
House mice, control of population outbreaks of by *Capillaria hepatica*, 425
Hydatid fluid, free amino acid concentration in, 135
Hymenolepis diminuta, action of cyclosporin A on, *in vivo*, 291
Hymenolepis microstoma, action of glycosporin A on, *in vivo*, 291
Hypochlorous acid, role of in the killing of *Trypanosoma musculi* by phagocytes, 253

Immunity, mechanisms of to malaria, 315
Immunocytochemistry, use of to demonstrate neuropeptides in *Fasciola hepatica*, 227
Immunological relationships, during infection of mice with *Heligmosomoides polygyrus*, 459
during infection with *Heligmosomoides polygyrus*, 115
Immunosuppression, of the cockroach host by *Moniliformis moniliformis*, 307
Infracommunity structure, of the helminths of *Apodemus sylvaticus*, 145
Infectivity, effect of oxamyl on in *Globodera rostochiensis*, 151
of cultured *Plasmodium falciparum* gametocytes to mosquitoes, 165
Irradiation, of *Schistosoma mansoni* for the induction of protective immunity in mice, 43
Isoenzymes, characterization of in the metacyclics of *Leishmania* spp., 7

Killing, of *Trypanosoma musculi* by phagocytes, 253

Larus canus, diversity patterns in helminth communities in, 439
Leishmania major, biochemical characteristics of the metacyclic forms of, 7
Leishmania mexicana mexicana, biochemical characteristics of the metacyclic forms of, 7
Lepomis cyanellus, survivorship of *Leptorhynchoides thecatus* in, 447
Leptomonas lygaei, host–parasite relationship and cysts of in *Lygaeus pandurus*, 395
Leptorhynchoides thecatus, survivorship of in the green sunfish, 447
Leucocytes, responses of in *Schistosoma mansoni*-vaccinated mice, 43
Lipid biosynthesis, in *Plasmodium*-infected erythrocytes, 351
Lipid utilization, effect of oxamyl on in *Globodera rostochiensis*, 151
Liposomes, containing chloroquine as chemotherapy for murine malaria, 381
Lizard malaria, sex ratio of the gametocytes in, 343
Lygaeus pandurus, host–parasite relationship of *Leptomonas lygaei* in, 395

Macrofilaricidal activity, radiorespirometric detection of, 259
Major sperm protein, in free-living and parasitic nematodes, 471
Malaria, experimental in rodents, effect of host diet on, 175
immunity to, 315
Melanoma cells, adherence of *Plasmodium falciparum*-infected erythrocytes to, 359
Mesocestoides corti, action of cyclosporin A on, *in vivo*, 291
Metabolic transition, in the cercariae of *Schistosoma mansoni*, 409
Metabolism, of glycogen by *Schistosoma mansoni in vitro*, 67
of rat liver during experimental nippostrongylosis, 301
Metacyclic forms, biochemical characteristics of in *Leishmania* spp., 7
Micro-organisms, adhesion of to plant-parasitic nematodes, 155
Millettia molluscicide, genetic basis of resistance to in *Biomphalaria glabrata*, 17
Models, of *Capillaria hepatica* in mice, 425
Molluscicide resistance, genetic basis of, 17
Moniliformis moniliformis, immunosuppression by larvae of, 307
Monoclonal antibodies, reactivity of with *Schistosoma mansoni*, 213
use of in the characterization of theilerial parasites, 179
use of to detect changes in *Heterodera glycines* antigens, 479
Mosquitoes, infection of with cultured *Plasmodium falciparum* gametocytes, 165
Mosquito, host selection by, 337
Motility, *in vitro*, of *Diclidophora merlangi*, 85

Nematicide, effect of on the lipid utilization and infectivity of *Globodera rostochiensis*, 151
Nematode antigens, changes in during infection of soya beans, 479
Nematodes, major sperm protein and actin genes of, 471
plant, adhesion of micro-organisms to, 155
Nervous system, of *Fasciola hepatica* contains neuropeptides, 227
Neuromuscular system, studies on in *Diclidophora merlangi*, 85
Neuropeptides, immunocytochemical demonstration of in *Fasciola hepatica*, 227
Nippostrongylosis, liver alanine-amino-transferase activity fluctuations during, 301
Nippostrongylus brasiliensis, effect of infection with on rat liver alanine-amino-transferase activity, 301

Onchocerca gibsoni, detection of by radiorespirometry, 259
Oogenesis, in *Brugia pahangi*, 105
Oxamyl, effect of on lipid utilization and infectivity in *Globodera rostochiensis*, 151

Pathological consequences, of *Ancylostoma ceylanicum* infections in hamsters, 283
Pathology, of *Schistosoma nasale*, in cattle in Sri Lanka, 197
Periplaneta americana, immunosuppression of by the larvae of *Moniliformis moniliformis*, 307
Phagocytic cells, role of hypochlorous acid in the killing of *Trypanosoma musculi* by, 253
Phospholipid metabolism, in *Plasmodium*-infected erythrocytes, 351
Plant-parasitic nematodes, adhesion of micro-organisms to, 155
Plasmodium berghei, acidic compartments in, 1
chemotherapy of, using liposome encapsulated chloroquine, 381
Plasmodium falciparum, infectivity of cultured gametocytes of, 165

Plasmodium falciparum-infected erythrocytes, adherence of to melanoma cells, 359
phospholipid metabolism in, 351
Plasmodium spp., sex ratio of the gametocytes of, 343
Plasmodium yoelii-infected erythrocytes, transport of 2-deoxy-D-glucose in, 371
Polystomatid monogeneans, diet and gastrodermal ultrastructure of, 265
Population biology, of *Trichuris muris* infection in mice, 451
Population dynamics, heterogeneity of in *Bulinus globosus* and *Biomphalaria pfeifferi*, 21
Population growth, in *Gyrodactylus turnbulli*, 245
Population outbreaks of house mice, possible control of by *Capillaria hepatica*, 425
Praziquantel treatment, effect of on lung-stage larvae of *Schistosoma mansoni*, 203
Predisposition, to trichuriasis, 275
Prevalence, of *Schistosoma nasale*, in cattle in Sri Lanka, 197
Protective immunity, leucocyte response during, in *Schistosoma mansoni*-vaccinated mice, 43
Proteinases, release of as a possible effect of praziquantel on lung-stage larvae of *Schistosoma mansoni*, 203

Radioactive precursor incorporation, use of to study phospholipid metabolism, 351
Radiorespirometry, use of for the detection of macrofilaricidal activity, 259
Raphidascaris acus, inequalities in mass and fecundity during the egg-producing period in, 489
Resistance, to *Millettia* molluscicide in *Biomphalaria glabrata*, 17
Rickettsia-like organisms, cloning of a repetitive DNA from, 81
RNA synthesis, in the ovary of *Brugia pahangi*, 105
Rodent malaria, effect of host diet on, 175

Schistosoma mansoni, antibodies to the surface antigens of the schistosomula of, 417
antigen localization in, 213
carbohydrate metabolism of the cercariae of, 409
cellular responses to in the lungs of infected rats, 57
differentiation of from *S. rodhaini* using cloned DNA probes, 75
effect of praziquantel on the lung-stage larvae of, 203
glycogen metabolism by *in vitro*, 67
leucocyte responses to in vaccinated mice, 43
Schistosoma nasale, prevalence and pathology of in cattle in Sri Lanka, 197
Schistosoma rodhaini, differentiation of from *S. mansoni* using cloned DNA probes, 75
Schistosomes, epidemiology of in host snails, 21
Schistosomula, antibodies to the surface epitopes of in infected patients, 417
cellular reactions around in the lungs of infected rats, 57
Sex ratio, of the gametocytes of *Plasmodium* spp., 343
Sexual reproduction, in *Gyrodactylus turnbulli*, 245
Skin-penetrating larvae, of *Strongyloides ratti*, 95
Strongyloides ratti, cutaneous reactions to in rats, 95
Surface antigenicity, of skin-penetrating larvae of *Strongyloides ratti*, 95
Surface antigens, of *Schistosoma mansoni* schistosomula, 417
Survivorship curves, for *Heligmosomoides polygyrus*, 115
Survivorship, of *Leptorhynchoides thecatus* in the green sunfish, 447
Synthesis, of glycogen by *Schistosoma mansoni in vitro*, 67

Tegument antigens, reactivity of monoclonal antibodies against, 213
Theilerial parasites, characterization of, 179
Transmission, of *Eimeria* spp. from *Apodemus sylvaticus* to *Mus musculus*, 329
Transport, of 2-deoxy-D-glucose in *Plasmodium yoelii*-infected erythrocytes in, 371
Treatment, of *Ascaris* infections, strategies for, 125
Triatoma infestans, cultivation of *Blastocrithidia triatomae* on a cell line of, 387
Trichuriasis, host predisposition to, 275
Trichuris muris, density dependence of in CBA/Ca mice, 451
Trichuris muris-mouse model, for the study of host predisposition, 275
Trypanocidal factor, identification of in normal human serum, 401
Trypanosoma equiperdum, identification of a trypanocidal factor against in normal human serum, 401
Trypanosoma musculi, role of hypochlorous acid in the killing of by phagocytes, 253

Ultrastructure, of *Blastocrithidia triatomae* attached to a *Triatoma infestans* cell line, 387
of the cysts of *Leptomonas lygaei* in *Lygaeus pandurus*, 395
of the gut of polystomatid monogeneans, 265
Unionicola spp., host specificity of, 189

Vaccine, development of to the blood-stage of *Plasmodium* spp., 315
